Selecting a Color For Your Roof

To ensure complete satisfaction, please make your final color selection from several full size shingles and view a sample of the product installed on a home. Be sure to look at the color samples of all materials in natural sunlight, at different times of day to ensure that your color choices are complementary. Colors shown in printed materials may not be accurate, and color chips do not reflect the dramatic color blends of the full shingle.

THE IKO STORY

Commitment. Quality. Innovation. Key Values that Drive our Business.

Isidore Koschitzky
IKO Founder

Founded in 1951, IKO began as a small manufacturing plant in industrial Calgary. A family-owned enterprise, we made waterproofing materials the old-fashioned way: by soaking kraft paper with asphalt and by applying asphalt to paper-based felt.

There was an immediate demand for our products. With the post-World War II building boom, young families flocked to the suburbs to fulfill their dream of homeownership. We knew they deserved the very best roofing materials so just two years after opening, we introduced rolled roofing and later, asphalt shingles. Customers loved our high-quality shingles. We expanded across Canada, continuously investing in our employees and technology to improve our products and modernize our business. By the late 1970s, our operations extended throughout Europe and the U.S.

We put engineering and state-of-the-art technology into every shingle. Although invisible to most people, roofing products have evolved dramatically. Approximately 25 years ago, fiberglass started becoming the shingle mat of choice. For select

shingles, we modified our asphalt to make our shingles more pliable and impact resistant. We added special granules to help protect roofs from the damage of UV light. And we introduced computer-aided color design to increase selection and enhance the beauty of our shingles.

When the market demanded a more compelling design to the traditional three-tab shingle, IKO was among the first to produce some of the world's finest laminated and architectural-style shingles. Our variety of contemporary shingles allows our customers to select the shingle that suits their individual need and style.

As roofing specialists, we stick with what we do best – roofing. What's more, we are vertically integrated, which means we have control over the entire manufacturing process – from the raw materials to the finished product. You can be assured that IKO is as responsible for

the raw materials as the final product, allowing us to provide exceptional quality you can count on. Quality we believe our competitors simply cannot match.

A family-owned company now for three generations, IKO intends to be around for many more. Our products are found on distinctive residential, commercial and engineering structures in more than 50 countries. We operate over 20 manufacturing plants globally. In fact, at a time when other manufacturers are cutting back, our business is going strong. We plan to invest in additional laminated shingle production capacity and are actively pursuing opening new manufacturing facilities.

Our strength is our commitment to quality and our passion for setting the standard in the industry.

Innovative Design

Our random-cut shingles reflect the subtle variances of hand-cut cedar shakes.

Color Featured: Chalet Wood

Armourshake

LIMITED LIFETIME ARCHITECTURAL SHINGLES

For a rooftop that stands above the rest, the classic and elegant Armourshake performs far better than any asphalt shingle in its class.

With the natural look of real wood shakes, Armourshake stands out for its ability to defend your roof against the fierce elements of nature. Wood roofs can turn to gray in as little as five years as the sun strips them of their natural resins.

By deflecting harsh sunlight and resisting algae, Armourshake shingles boast a good-as-new appearance years after installation.

This premium heavyweight, laminated shingle is set in an intricate shake-look design and detailed with eye-catching color contrasts.

Depth of character, finely crafted details - For a roof with architectural distinction, Armourshake's deep cuts and dimensionality will captivate you, adding classic charm to your home.

- More fire resistant than typical cedar shakes
- To ease installation, must be used with Armour Starter, an accessory flat-strip embedded with granules that coordinate with Armourshake's colors
- So strong it has a UL 2218 Class 4 Impact Resistant rating.*
- 15-Year IKO Iron Clad Protection¹
- Covered by a Limited Lifetime Warranty¹
- Meets IRC wind code requirements; Limited Wind Warranty coverage up to 110 mph (177 km/h)¹
- Limited High Wind Warranty Upgrade of 130 mph (210 km/h)^{1,2}

* This impact rating for Armourshake shingles is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium and is not to be construed as any type of expressed or implied warranty by the manufacturer, supplier, or installer.

¹ See Limited Warranty for complete terms, conditions, restrictions and application requirements.

² High Wind Application is required.

the US.

Cambridge AR

LIMITED LIFETIME ARCHITECTURAL SHINGLES

IKO Cambridge AR Series: With its outstanding protection, strength and impressive architectural design, why choose anything else?

The Cambridge AR shingle is the shingle of choice for homeowners who demand the best in terms of quality, durability and value. Combining an extraordinary shake-like design with superior protection makes it a time-tested favorite.

Cambridge AR shingles are engineered to offer customers more protection and peace of mind with a larger, heavier and more durable shingle. Constructed with two layers of heavyweight fiberglass mat, more asphalt and less fillers, these shingles set the standard by offering a Limited Lifetime Warranty, superior tear strength and resistance to high winds.

Cambridge AR Super White shingles are ENERGY STAR® qualified.

- Features an algae resistant granule
- 15-Year IKO Iron Clad Protection¹
- Limited Lifetime Warranty¹
- Includes up to 110 mph (177 km/h) Limited Wind Warranty¹
- Limited High Wind Warranty Upgrade of 130 mph (210 km/h)^{1,2}
- Cambridge AR is Miami-Dade Approved³

¹ See Limited Warranty for complete terms, conditions, restrictions and application requirements.

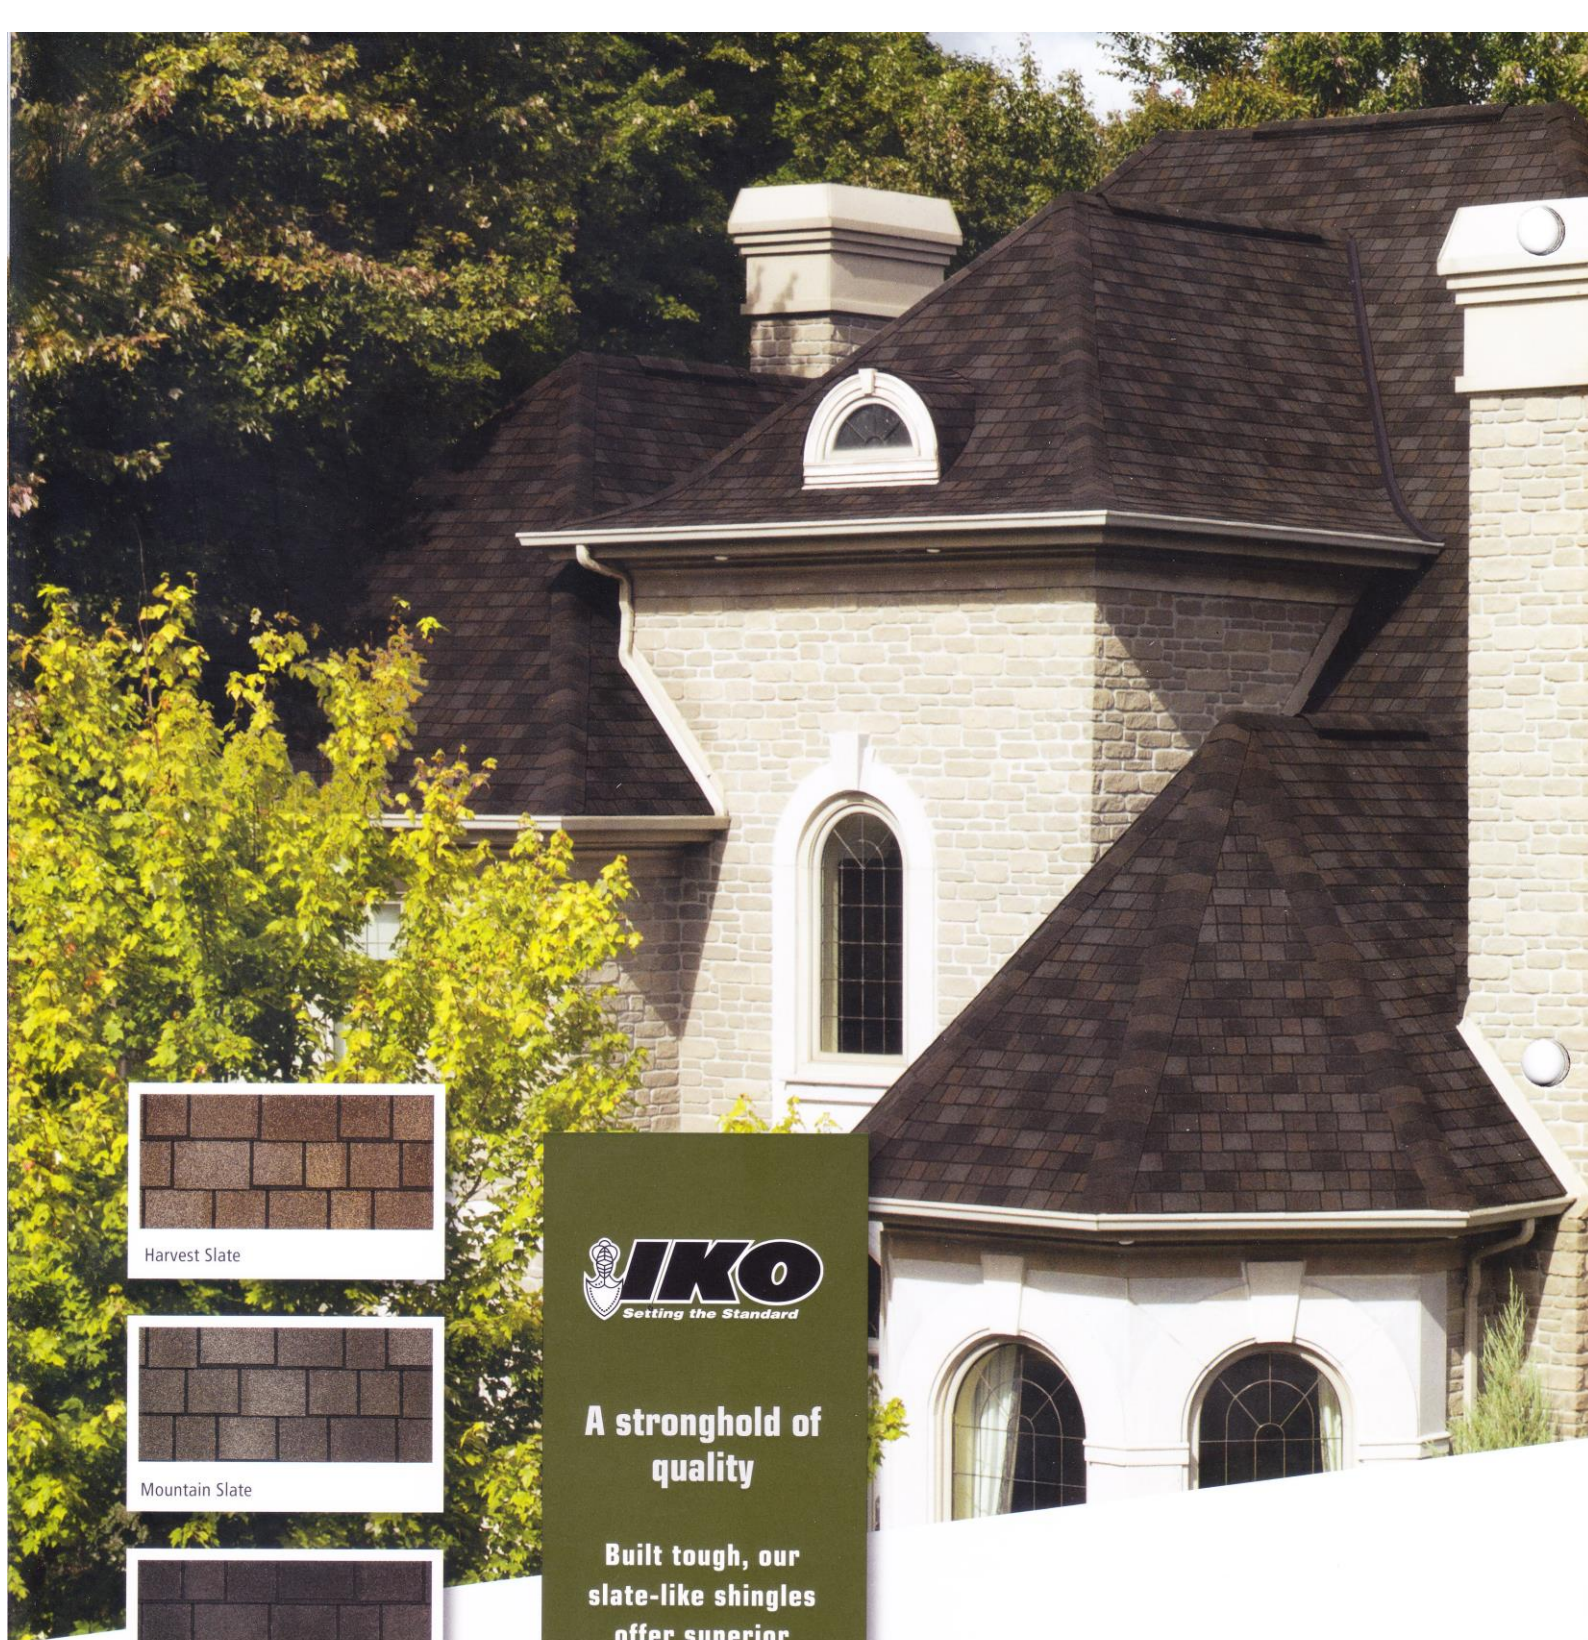

² High Wind Application is required.

³ NOA # 10-0913.02 for Cambridge AR product made in Kankakee. Expiry date 5/5/2016.

A Time-Tested Favorite

The Cambridge AR shingle is selected by consumers who demand the best in terms of quality, durability and value.

Harvest Slate

Mountain Slate

Shadow Slate

Taupe Slate

A stronghold of quality

Built tough, our slate-like shingles offer superior protection from the elements under their regal appearance.

Unforgettable beauty blended with expert craftsmanship. The graceful hues and stately charm of a slate-look evoke an incomparable richness.

Color Featured: Shadow Slate

Royal Estate

LIMITED LIFETIME ARCHITECTURAL SHINGLES

When your home is a showcase for luxury and comfort, IKO's Royal Estate laminated shingles provide years of distinction and durability – at a value for you. Each shingle boasts a range of subtle color variations that evoke the look of true slate.

Contemporary materials and advanced technology make Royal Estate a lasting investment. Featuring algae-resistant granules, these shingles are easy to install and boast a limited lifetime warranty.

Our four, eye-catching colors – Harvest Slate, Mountain Slate, Shadow Slate and Taupe Slate – envelope your home in a tradition of refinement.

- Features an algae resistant granule
- 15-Year IKO Iron Clad Protection¹
- Covered by a Limited Lifetime Warranty¹
- Meets IRC wind code requirements; Limited Wind Warranty coverage up to 110 mph (177 km/h)¹
- Limited High Wind Warranty Upgrade of 130 mph (210 km/h)^{1,2}

² High Wind Application is required.

Crowne Slate

LIMITED LIFETIME ARCHITECTURAL SHINGLES

With stately charm and stand-out curb appeal, IKO's Crowne Slate top-of-the-line laminated fiberglass shingles are fit for the most exclusive properties. A natural slate-like look with precision-engineered roofing materials, creating an exceptional and long-lasting roof.

The industry's most advanced technology. Crowne Slate is built with layers of premium roofing material, saturated and stabilized with SBS modified bitumen. This rubberized material is resistant to hail, wind and extreme heat, providing your home with the protection it needs to become your legacy.

Color Featured: Regal Stone

Distinctive Luxury - Striking slate-like look shows an eye-catching appearance that sets your home apart.

- Your neighbors will envy the head-turning look of Crowne Slate. They don't need to know it costs substantially less than real slate.
- Protects against wind uplift and water penetration.
- So strong it has a UL 2218 Class 4 Impact Resistant rating.*
- 15-Year IKO Iron Clad Protection¹

- Covered by a Limited Lifetime Warranty¹
- Meets IRC wind code requirements with a Limited Wind Warranty coverage up to 110 mph (177 km/h)¹
- Limited High Wind Warranty Upgrade of 130 mph (210 km/h).^{1,2}

* This impact rating for Crowne Slate shingles is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium and is not to be construed as any type of expressed or implied warranty by the manufacturer, supplier, or installer.

¹ See Limited Warranty for complete terms, conditions, restrictions and application requirements.

² High Wind Application is required.

Make a bold statement

Each shingle displays an individual blend of color tones.

Together, the stone-like colors are reminiscent of the natural variations of premium slate.

Regal Stone

Royal Granite

Greystone Jade

Shingles alone are sometimes not enough to protect your home. IKO has developed a superior multi-layered roofing system incorporating our industry-leading products.

IKO's Pro 4 Roofing System is setting the standard in protecting your home.

IKO's Shingles

Crowne Slate, Armourshake, Royal Estate, Cambridge AR and Marathon shingles are created using the industry's most advanced technology and selected by consumers who demand the best in terms of quality, durability and value. Along with one of IKO's quality shingles, your Pro 4 System includes these accessory products;

4. Ridge Cap Shingles

Hip and Ridge, Hip & Ridge Plus, Hip & Ridge 12 Cap Shingles or Ultra HP™ High Profile Ridge Cap Shingles

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.

3. Roof Starters

Leading Edge Plus Starter Strips

Fast, easy and convenient. IKO's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with all existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

2. Underlayment

RoofGard-Cool Grey Underlayment

RoofGard-Cool Grey synthetic underlayment for total deck protection.

1. Eave Protection

GoldShield, ArmourGard, or StormShield Ice & Water Protectors

IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.
